

JOIN OUR YOUNG HIGH IMPACT TEAM

People with Purpose, Powering Change

POSITION: ASSOCIATE PRACTITIONER

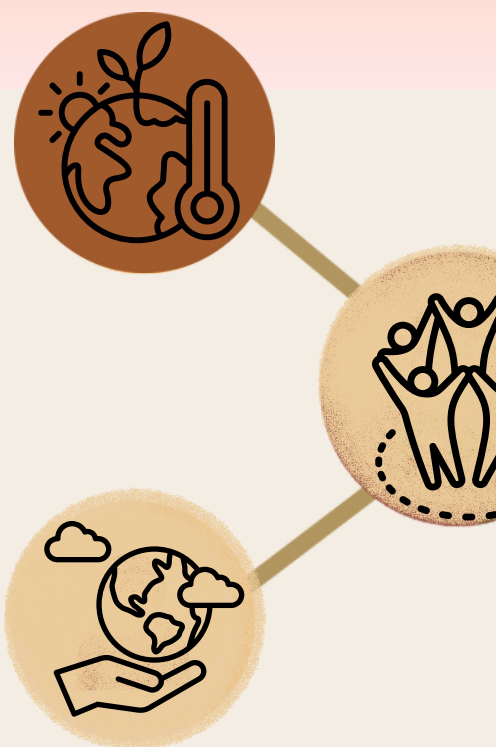

Theme: **Climate Action**
Location: **Ranchi, Jharkhand**
Joining Date: **Immediate**

About the Role

We are seeking passionate Associate Practitioners to join TRI's Climate Action initiative, driving community-led climate resilience and low-carbon rural transformation. You will work with communities, Panchayats, women's groups, and local institutions to implement decentralized renewable energy (DRE) solutions such as community-managed solar micro-grids and nature-based interventions. By collaborating with government departments, technology partners, and investors, you will promote green livelihoods, restore ecosystems, and enhance the quality of life through sustainable and inclusive rural development.

Responsibilities

- Identification of potential villages with technical and social feasibility
- Formation of Village Energy committees and their capacity enhancement for managing the micro grids
- Timely completion of baseline surveys
- Supporting the on-ground implementation of energy infrastructure
- Create and Maintain MIS of all Micro Grid Sites
- Prepare physical and financial progress reports to be shared with stakeholders

- Represent TRI's work on DRE in relevant forums and events.
- Integrate the DRE work with Community collectives and TRI's implementation framework.
- Support innovations and new practices

Qualifications & Experiences

- Bachelor's/Master's degree in Renewable Energy, Rural Development, Environmental Studies, Engineering, or a related discipline
- 2–3 years of experience in implementing renewable energy, climate action, or rural development projects.
- Experience in community-managed energy systems, micro-grids, or decentralized infrastructure preferred.
- Experience of working in development/social sectors including government agencies with multiple offices will be preferred

Knowledge/Skills

- Strong understanding of decentralized renewable energy systems (solar, micro-grids, bio-energy, etc)
- Knowledge of rural development, climate action, and sustainable livelihood frameworks
- Experience in community mobilization and institution building
- Proficiency in data management, monitoring tools, and reporting (Excel/MIS systems)
- Ability to work independently with strong planning, coordination, and problem-solving skills
- Excellent communication and interpersonal skills for engagement with diverse stakeholders
- Comfort with extensive travel and field-based project implementation in remote rural areas

How to Apply

If you are a passionate professional committed to advancing climate action through community-managed decentralized energy systems, meeting our eligibility criteria and looking to make a meaningful impact, we would love to hear from you. TRI matches compensation competitively in the sector to draw the best talent. To apply, kindly visit <https://www.trif.in/careers/>. The deadline for submission of the application is 30th October 2025. Since selection decisions will be made on a rolling basis, interested candidates are encouraged to apply at the earliest. Only shortlisted candidates will be contacted and invited for the next steps.

Join us in taking action for a climate-safe future!
