SOCIAL RETURN ON INVESTMENT (SROI)

Measuring Systems-Level Impact

TRI's Work Generates Measurable Social Value— Multiplying The Impact Of Every Rupee Invested.

Systems change creates value that goes beyond immediate outputs—shaping behaviours, institutions, and long-term outcomes.

SROI measures the social value created for every unit of investment. Based on real outcomes, adjusted for attribution and sustainability.

₹1
Invested
In Community Action Lab

₹11.89
In social value created (Community Action Lab)

₹5.86
In Social Value Created (Birsa Harit Gram Yojana)

₹5.17
In Social Value Created (Chief Minister Employment Guarantee Programme)

TRI's systems approach multiplies impact, enabling it to scale, sustain, and compound.
